

RAPHAEL FULFILLED

Product Designer · UI/UX · Front-End Developer

Lagos, Nigeria · 0814 625 1103 · raphaelfulfilled@gmail.com · raphaelfulfilled.tech ·
linkedin.com/in/raphaelfulfilled

PROFESSIONAL SUMMARY

Product Designer with **2+ years** of experience shipping user-centred digital products across fintech, edtech, and health-tech. Combines UI/UX design expertise with front-end development skills (HTML, CSS, JavaScript, Python) to bridge the gap between design and engineering. Proven track record of improving key metrics — **25% lift in onboarding completion, 20% reduction in navigation errors** — through research-driven design decisions. Comfortable owning the full product design cycle from discovery to high-fidelity prototypes and developer handoff.

EXPERIENCE

Product Designer Intern

May 2026 – Jul 2026

FlexiSAF Edusoft Limited · Remote, Nigeria

- Designed end-to-end user flows and high-fidelity prototypes for enterprise platforms serving
- Conducted usability testing sessions, translating feedback into actionable design iterations
- Collaborated with cross-functional engineering teams to ensure design consistency and **95%** design-to-code fidelity using Figma component libraries

Retail Network Engineer Intern

Apr 2025 – Sep 2025

ipNX Nigeria Limited · Port Harcourt, Nigeria

- Deployed and configured fibre-optic network infrastructure for **50+** retail and enterprise clients
- Reduced average installation turnaround time by **15%** through improved workflow documentation and coordination
- Troubleshoot network issues across LAN/WAN environments, maintaining **99%** uptime SLA for managed clients

Product Designer

Aug 2024 – Dec 2025

RaLBW · Lagos, Nigeria

- Translated complex logical processes into clear, user-friendly interfaces across **3** product verticals
- Designed user flows, wireframes, and high-fidelity prototypes, contributing to a **25%** improvement in onboarding completion rates

- Achieved a **20%** reduction in user navigation errors through iterative usability testing and information architecture restructuring
- Collaborated with **4** developers to deliver scalable, consistent product experiences using shared Figma design systems

Secretary General

Dec 2025 – Aug 2026

NACOS, Anchor University · Lagos, Nigeria

- Led strategic communications and administrative oversight for the Computer Science student body of **400+** members
- Managed meeting coordination, records management, and policy implementation across **4** departmental committees
- Served as official liaison between students, faculty, and university administration

Campus Ambassador

Dec 2022 – Sep 2026

Cowrywise · Lagos, Nigeria

- Drove brand awareness and user acquisition for Nigeria's leading savings & investment platform across Anchor University campus
- Organised **3+** financial literacy events and onboarded new users to the platform over 3+ years

KEY PROJECTS

NutriPadi — AI Nutrition Platform

Product Design + AI · 2025

Designed an AI-powered nutrition platform tailored for African foods. Led end-to-end product design from user research through to shipped product featuring instant meal scanning, macro tracking, and personalised diet insights.

- Built **40+** screens across onboarding, scanning, dashboard, and profile flows
- Designed the AI-powered meal recognition interface achieving **<3 second** scan-to-result experience

BusBoard — Smart Commute Companion

Full-Stack Web App · 2024

Designed and developed a crowdsourced BRT bus tracking application for Lagos commuters, powered by real-time WhatsApp Business API integration.

- Full-stack implementation using React, Node.js, and WhatsApp Business API
- Designed real-time tracking dashboard with **<2 second** data refresh intervals

NACOS Student Portal

UI/UX Design · 2024

Centralised web platform for Computer Science students, replacing fragmented WhatsApp groups with a single student hub. Designed and shipped the complete frontend.

- Consolidated **5+** fragmented communication channels into one unified platform

- Designed responsive interface serving **200+** active student users

DocuVerify — Document Authentication

Full-Stack Dev · 2024

Full-stack document authentication platform leveraging Computer Vision and SSIM algorithms to detect document forgery. Built with Python/Flask backend.

AULByeats — Campus Food Delivery

Product Design · 2023

Campus food delivery platform bridging students and vendors at Anchor University. Designed complete ordering flow with location-based delivery tracking.

SKILLS

Design	Figma, Framer, Canva · Wireframing, Prototyping, Design Systems, Interaction Design
Research	User Interviews, Usability Testing, Competitive Analysis, Information Architecture, Persona Development
Development	HTML5, CSS3, JavaScript, React, Python, Flask, Node.js, Git
Other	Agile/Scrum, Jira, Design-to-Dev Handoff, Cross-Functional Collaboration, Networking (LAN/WAN/Fibre)

EDUCATION

Anchor University, Lagos

Sep 2022 – Aug 2026

Bachelor of Science (B.Sc.) — Computer Science

CERTIFICATIONS

- Zero Code and Blockchain Tech for Early Career Professionals
- Python Developer Certification
- Introduction to JavaScript
- Vibe Coding
- Data Analytics with AI
